hexify	<i>Create hex sticker from image</i>
--------	--------------------------------------

Description

Create hex sticker from image

Usage

```
hexify(  
  from,  
  to,  
  text_label = NULL,  
  text_colour = "white",  
  border_colour = "grey20",  
  border_opacity = 60  
)
```

Arguments

from	Path to the source image
to	Path to the output image
text_label	Text to display as the label
text_colour	Colour of the text label
border_colour	Colour of the border
border_opacity	Opacity of the border

Value

Same as `magick::image_write`
